

# Rohan Yogesh Deshpande

+19174984648 • Princeton, New Jersey • rohandeshpande832@gmail.com • <https://rohan2002.github.io/>

## Education

### RUTGERS UNIVERSITY

Bachelor of Science, Major in Computer Science, Minor in Mathematics

GPA: 3.7 / 4.0

Awards: Dean's List, and Alan Marc Schreiber Memorial Scholarship for **Excellence in Mathematics**.

Relevant Coursework: Operating System Design, Computer Security, Design and Analysis of Algorithms, Systems Programming, Software Methodologies, Data Structures and Algorithms, Linear Algebra, Scientific and Technical Writing.

New Brunswick, NJ

Expected: May 2024

## Skills

Languages: Python, C, Java, Clojure, HTML/CSS, Typescript/Javascript

Spoken Languages: English (Native), Hindi (Native), Marathi (Native), Japanese (Proficient)

Technologies: Git, Docker, Kubernetes, KEDA, REST API, gRPC, Operating System Design, Redis, Node.js, React.js, Django, Flask, Protocol Buffers, Azure Cloud, AWS Technologies, Microservices, PostgreSQL, MySQL, MongoDB

Work Authorization: India, Japan, United States of America

## Experience (3 Years of Total Experience)

### KPMG IGNITION TOKYO (KPMG JAPAN)

Tokyo, Japan

#### Software Engineer

May 2022 - August 2023

- Led development of **file comparison software (Python, Django)**, increasing accuracy by **48%** and reducing processing time by **60%**.
- Improved application's distributed system performance by **30-50%** by implementing caching, and introducing event-driven autoscaling with **KEDA** (Kubernetes Event Driven Autoscaling).
- Improved financial auditing accuracy by developing a **patented** algorithm in **Python** that improved data extraction from PDFs.
- Accelerated deployment timelines by implementing **automated security checks** to streamline security bug resolution.
- Developed a **property-based** testing framework in **Clojure** for assessing **REST APIs** across varying firewall conditions.
- Orchestrated a series of company-wide knowledge-sharing sessions, which collected more than **⅔ of employees** and contributed largely to context sharing and transparency across each division.
- Technologies:** Django, Python, Clojure, Automated Testing, Kubernetes, KEDA, Distributed Systems, Docker, Microservices

### RUTGERS UNIVERSITY, DEPARTMENT OF GENETICS

New Jersey, USA

#### Research Assistant

May 2021 - May 2022

- Developed software using **Python, OpenCV, and Arduino** enabling Neuroscientists to automatically conduct and record **real-time** Optogenetics experiments.
- Developed software using **Python, FFMPEG, and OpenCV** to label video frames for training computer vision models.
- Technologies:** Python, OpenCV, FFMPEG, Arduino, Statistical Data Analysis

### WHIZ.AI

New Jersey, USA

#### Software Engineer Intern

November 2021 - January 2022

- Developed efficient back-end functionality to support **language models** using **Python, and Flask** resulting in a **30% decrease** in API latency.
- Increased the efficiency of engineers by integrating and documenting **Alembic** for easier database migrations.
- Technologies:** Python, Databases, Flask, REST APIs, Language Models, Microservices

### HEALCO INC.

New Jersey, USA

#### Fullstack Engineer Intern

May 2020 - February 2021

- Architected, developed, and deployed HealCo's press release web app with robust identity access management, press sharing functionality, and administrative features.
- Built a scalable, and cost-effective **AWS Fargate-based** DevOps system and CI/CD pipeline for all HealCo apps.
- Integrated **Stripe** into the web application to enable payments by ACH debits and credit cards.
- Technologies:** AWS, Node.js, Next.js, React.js, Typescript, Javascript, MySQL, PostgreSQL, Docker, Microservices

## Featured Projects

### GOOD EATS - Full-Stack Nutrition App:

- Developed a web application using **React** and **Node.js** for users to obtain nutritional information from food images.

### CONCURRENT WORD WRAPPER - Word Wrapping Library:

- Developed a C library to format (word wrap) files in multiple directories and sub-directories concurrently.

### IFEVAL - Large Language Model (LLM) Response Evaluation Framework:

- Developed a **Clojure** library to evaluate responses from LLM, based on the work of **Google** and **Yale University**.
